

Historical Papers Research Archive, University of the Witwatersrand, Johannesburg, South Africa, 2018.

This Index provides a listing of the digitised Registers of the Anglican Church in Southern Africa, which cover the years 1850-2004 and include baptism, marriage and burial records.

The digital records have been derived from a digitisation project carried out by the Family History Library of the Church of Jesus Christ of Latter-day Saints. They were converted to multipage PDF files in 2018.

Please note that the Anglican Church in South Africa itself was originally organised in four provinces, namely the Diocese of the Cape of Good Hope, Diocese of Natal, Diocese of the Orange Free State and the Diocese of Transvaal. This structure has been retained for the listing of the records. The Churches/Parishes in this list are arranged alphabetically as per Diocese.

Registers which are not listed below have not been digitised. Please contact Historical Papers, if these Registers are part of the physical archive of the Anglican Church in Southern Africa and are kept at Historical Papers. Some of the Dioceses have opted to keep the Registers in their respective Parish.
