

Dr. E. T. Mellor

Pam box 1. Contains:

43 wallets of photographic negatives, mostly labelled with the names of mining areas, e.g. Tsumeb, Broken Hill, Pilgrim's Rest;

2 plastic sleeves, one labelled 'Transferred from "Rhodesia" file', containing photographs mostly of the Zimbabwe Ruins; the other 3 negatives and another envelope of negatives labelled: Onderwacht & Lydenburg Platinum, together with 52 photographs, presumably developed from the negatives.

Pam box 2. Contains pamphlets, notes and a file

Pamphlets:

1. Western Rand Estates, Limited. Directors' report... to 31st March, 1904
2. Western Rand Estates, Limited. Directors' report... to 31st March, 1905
3. Western Rand Estates, Limited. Report of Dr. J. T. Carrick. Report on Dr. Carrick's geological map of the Western Rand by Dr. Frederick H. Hatch. 1902
4. Mellor, E. T. The geology of the Transvaal Coal-measures with special reference to the Witbank coal-field. 1906
5. Mellor, E. T. The conglomerates of the Witwatersrand. 1916.
6. A. Gordon Salomon. Yeast; its morphology and culture. 1888
7. Percy F. Frankland. Recent contributions to the chemistry and bacteriology of the fermentation industries. 1892

Notes

There are a sleeve of maps and five sleeves of notes on various scientific subjects; two bundles of notes tied with string, and one set of loose notes.

File.

Dr. Mellor's papers. Geology: mineral prospecting. Angola 1921. S.W.A. Co. Broken Hill – zinc. Rhodesian Congo Border Concession. Hartebeestfontein. Driefontein. Holfontein Farm. T.C.L.: Reef. Copper, coal, platinum, nickel-. Contains geological reports, newspaper cuttings, some correspondence.

Boxes 3a and 3b: Notebooks. There are 47 small notebooks which are field books, i.e. diaries of Mellor's geological activities, dating from 1903 to about 1918.
