

## Subject index to the Managerial Files (MNF files)

### Notes

It is advisable to use this in conjunction with the *Alphabetical list of files* for more specific subject division. Block headings have been used to gather together files on the same topic (see the list: Subject headings, for quick reference).

Where there is a recognisable numerical sequence, this has been adhered to in preference to an alphabetical list of file titles.

The terminology of the original files has been used.

The letter R next to a file number indicates Report.

Please note: there is much more on these subjects in the files of individual mines (CMR boxes).

<u>Title</u>	<u>Date</u>	<u>Box no.</u>	<u>File no.</u>
