Dear Dr Xuma,

Ever since we had a dear little girl here Quaina Xuma, your niece or sister - I have followed your career with much interest - your own account of your struggles to obtain your medical qualifications abroad. Your various activities in Joburg, have all aroused in me the deepest admiration for your brave efforts to make a place for native medical men - & now I feel shocked & grieved as if you had been a dear friend when I saw the notice of your great loss in the papers. My deep sympathy goes out to you in your grief - & I-day when I saw your wife's picture in the Bantu World, my heart was drawn more than before to realize something of what the loss must be.

My Father & Mother came out from Scotland in 1867 due to the British Missionaries along with old Ligo Loya at Lutuna near Butebute & after being Dr for the Transkei & beyond, for many years, Magistrate at Mbulu & Kentani - My Father spent the last 20 years of his life again at Lutuna where he lies buried beside his Church - So I have spent most of my life in the Transkei amongst natives, helping my Father in many ways -

You can understand how eagerly I look forward to the development of natives young men & women, the training of native medical men had been the keenest desire of my Father's life - but he died before this came to pass - I am now returning

at the age of 71 years + feel sad  
to think my life + work  
are near the end. I have  
been teaching here for the last  
13 years dressmaking + needle  
work to all these native girls.

Rev. Caudlish Kotis Father was  
my father's first interpreter +  
evangelist + teacher in the early  
days + we were all children  
together -

My sincerest good wishes  
follow you + may you be  
strengthened in your convictions  
by the never failing promise -  
"I will never leave thee, I will  
never forsake thee" when thou  
passeth through the waters  
I will be with thee" - as I have  
promised true - God bless + keep  
you in this dark time + may  
our little human sympathy  
also help you -

With kindest regards, yours  
very sincerely,

(Miss) H. F. Greenwood

There is something so  
beautifully appealing in the expression of  
that photo in the Bantu World - it draws one

personal matters.

Dear Doctor,

I have just lately read in the paper  
of your very sad bereavement.

Please accept my very sincere condolences,  
although they may seem so belated. I join with  
many others in praying that God may sustain  
you in this time of trial & sorrow.

Believe me to be, dear Doctor,

yours very sincerely,

My dear Dr Xuma,

I have been meaning to send you this short note for some few days past, and regret that it got overlooked. The news of your wife's death came as a great surprise, and I do want you to know how much I sympathise with you in your great loss. We have ourselves been going through a similar experience in the death of one of our school-boys whom we love very much; I feel therefore all the more able to express to you our heartfelt sympathy. Our prayer is that God may strengthen you in your hold of the certainty of Our Lord's Resurrection, and that you may thereby be comforted. As people pass beyond the veil, and we grow in years, it makes that land of the beyond grow more familiar, and deepens our longing to share in it. May God bless you at this time.

Yours very faithfully,

Dear W<sup>m</sup> Xuma,

No words can tell you with what grief I now think of your loss some 4 days ago. I was away at the time & did not see the papers. I offer you my heartfelt sympathy.

W<sup>m</sup> Xuma's courageousness & her charm & sincerity will always be an inspiration to me & to all who knew her even as slightly as I did. I value her friendship very deeply. Your children will mirror her spirit I know, & they will grow to comfort you.

I had knitted a jersey for the little girl & have been prevented several times when on the point of

going out to see you. I will send  
it.

My dear Uncle,

Having heard of mother's death, I felt I had no strength of doing anything.

Because when I thought of it and traced it that it was a draw back on my side. Certainly

I found myself an Orphan again, for missing such an aunt who had proved to be my

mother. I think uncle I told you about the 15/ for the organ lesson.

The time when the Secretary was still Miss Ball I was never given but

now Miss Diack gave it to me, and I went to aunt Ricks to join for piano. I was very late and she

had already many girls and I had to see Mrs Shumble about it. But I think I will have

the best of it next term. My love to Cocoa, Siri & Caiphus

23<sup>rd</sup> May, 1934.

The Chairman of the <sup>Teachers</sup> Board.  
Johannesburg.

Dear Sir,

May we kindly have the honour to disclose to you our attitude towards an event that has ~~occurred~~ caused a great alarm amongst us.

We the staff members of Wilberforce Institute that stays within the campus had an assembly on Thursday evening 17<sup>th</sup> instant, during the absence of our Superintendent; the ~~embodiment~~ embodiment of the discussion issued from a second event that occurred on Friday night 18<sup>th</sup>, the realisation was that some one has unscrupulously managed to go through into the Secretary's office, unfortunately was unable to lead into the office of the Superintendent; a pane of the Secretary's office window directly opposite the opening ~~is~~ button a hole is cut out to facilitate the opening, and a stone was found inside lying on the floor the next morning.

continued

On the first occasion there was no evident trace of how that some one might have gone in, but the bottom of the drawer that generally keeps the office cash was penetrated in order to reach the cash and part of it was taken away.

Evidently the action does is after money, we therefore humbly bring forth a suggestion to protect as much as possible the Superintendent where ever she may be — in the local village, ~~or~~ up at her quarters at the ~~(tools)~~ Girl's department. The building has no reliable doors and windows e. g. large windows of large panes and a glass door for the front.

From this circumstances suggestions are therefore given that a safe if possible be provided for the protection of the School Funds; a licence for owning a revolver be obtained for the Superintendent for her due protection.

And lastly ~~(that)~~ that some boys (two) known only by the partitioners be instructed to guard the girl's building by night against an unsuspected attack.

Dear Dr. Xuma.

Since I happened to be writing Bishop Simms, I thought I would drop you a line also, especially since I just finished chatting with Jesse Gibson. He is well and just recovering his new Chrysler which was stolen and stripped of accessories. It was covered by insurance so he is none the worse off other than for inconvenience.

We had a story the other day about Mr. Insull and his benefactions, but I could not place my fingers on the details of your educational experiences at the moment and so did not include you. He has fallen on evil days for which we are all sorry.

Tell us something of your experiences sometime and we will make a story from it.

It might not be a bad idea for you to send us a cut and fifty mats, or to have us make them over herefor you. The cost here would be about four pounds.

Such a story syndicated, telling of your life and career and what you are accomplishing in South Africa, should truly be inspirational.

I was down at Tuskegee for Founder's Day. You may know that I have been elected to the Trustee board. It is marvelous there now. Three or four great new buildings over on the old parade ground and new landscaping makes it

beautiful indeed.

Perhaps sometime you may wish to make them some gift of African objects, or even a donation. If so, I would be proud to have it come through me. Dear Doctor Xuma:

I hope you are well. This leaves us doing very nicely. Careve is much improved.

I received your letter at Bloemfontein and was very anxious to come to Johannesburg at that time but it was absolutely impossible. My own personal affairs as well as official interests demanded my immediate return to Cape Town. However, I will be soon coming to Johannesburg.

I plan to have a session of the Trustee Board Monday evening, June 11th at the Bantu Social Center. Kindly secure the Center for that purpose for me.

Please get ready all the things which you desire to come before the Trustee Board. We shall want, of course, a report from the Committee which supervised the repairing of the buildings at Wilberforce and a report from the Teacher's Committee. I hope to be in Johannesburg June 5th. Sister joins me in love to you.

Yours faithfully,

NEW EDUCATIONAL FELLOWSHIP CONFERENCE

32/34.

African Education Section  
at  
Johannesburg

P.O. Box 1176,

JOHANNESBURG.

May 29/34

S. A. B. Xuma

Dear S. Xuma

1. Programme. I am glad to be able to send you the full programme of the Conference meetings at Johannesburg. Although it is subject to alteration the programme may be regarded as official, having been arranged by the Conference organisers.

You will notice that I have arranged for the African Education Section to commence on Monday, July 16th, while the other sections do not start until the next day. As the Conference has been advertised to commence on July 16th, members will be in Johannesburg on that day.

You will also see that in certain instances it has been arranged that the African Education Section will not be in session, to enable the members to hear addresses in other sections likely to be of special interest to workers in Native education.

The programme is a full one, but it is hoped by efficient organisation to secure adequate consideration for all the topics to be presented.

2. Papers. I shall be very grateful for your help in the following ways:-

(a) Synopsis. Will you please send me at once a synopsis of your paper so that I may have copies made for circulation among those attending the section. This will make it easier for the audience to follow your argument and help in discussion. As there are to be over forty papers in this section alone at Johannesburg, and as I leave Johannesburg for the Cape on June 23rd and shall not return before July 16th, I am anxious to have the copying done before I leave Johannesburg.

(b) Time. You will be allowed twenty minutes for the reading of, or speaking to, your paper. If your paper is longer than this will you please mark those passages that need not be read out, or if you propose to speak instead of reading, will you please make sure that you get the essential points made in the time allowed. I must count on your co-operation in this matter for I know that the time given is not liberal. I think however you will find that the more crisp the presentation, the better will the following discussion be. As most of those who will be attending the section will have been directly engaged in Native education, you can assume considerable previous knowledge of the topics. The Conference aims at a greater appreciation of the factors operating to create

- problems -

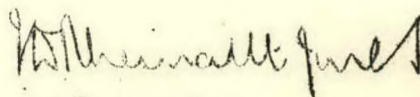

problems in Native education and a wider vision of the possibilities of the adjustment of Africans to modern conditions. Too great attention to details should therefore be avoided and thought directed to new and helpful suggestions.

- (c) Publication. It is likely that all the papers and the essential points in the discussions will be published in the printed report of the Conference. Your paper should therefore be in a form suitable for publication and handed to me at the close of the discussion upon it. May I ask that,
- (i) Your paper be neatly typed (double spacing) or legibly written on one side only of the paper;
  - (ii) that it bear on it your name (with your degree - if any) and the correct designation of the post you occupy; and
  - (iii) if at all possible, two copies of your paper should be handed in.

As Editor of the African Education section of the Conference Report, I shall greatly appreciate your co-operation in these directions.

- (d) Discussion. I am arranging for one or two of the overseas speakers to open the discussion after the reading of the papers on certain topics. Will you please let me know the topics on which you would like to be called upon to speak in the discussion. It is likely that lists will be kept of persons wishing to speak in the discussions so that they may be called upon first and without delay. Should there be a general desire to continue any discussion beyond the time allotted, a special session will be arranged during an afternoon period.
- (e) Chairman of Section. On the urgent request of the Conference organisers, I have agreed to act as Chairman of the African Education section, both at Cape Town and Johannesburg. I have undertaken this onerous task in the belief that you and others will readily co-operate in the smooth working of the section.
- (f) Secretary of the Section. Mr. A.L. Saffery, B.A. of the staff of the South African Institute of Race Relations, has agreed to act as Secretary of the section in Johannesburg and the secretarial work of the section will be conducted in the offices of the Institute which are located at Room 4, Eastern Basement, Central Block, University Buildings, Milner Park, Johannesburg (Telephone 44-3781).
- (g) Accommodation. Please communicate with Mr. Saffery or myself if you are in any doubt or difficulty regarding your accommodation arrangements for the Johannesburg meeting.
- (h) Article in "New Era in Education". I am sending you a copy of an article on Native Education which appeared in a recent issue of the journal of the New Education Fellowship.

Yours sincerely,
