

MAKE YOUR FARM PAY MORE

If you want healthy plants you must feed them correctly.
 As every wise farmer knows—plants need food just like human beings do. In order to grow, plants take their foods from the soil. In time all this food in the soil gets used up.
 To keep your plants healthy and strong more food has to be put back into the soil. And the best way to feed the soil with the exact foods that it needs is to use fertilizers.
 Fertilizers are easy to use. Just place the fertilizer in the furrows and it will do all the work of feeding your plants, increasing your crops, and making more profit for you.

KYNOCH FERTILIZERS GIVE YOU BIGGER YIELDS

You are sure of getting best yields when you use Kynoch fertilizers. They are made here in South Africa by people who know your farming problems, and how to solve them. You can always be sure, too, that you are buying a KYNOCH fertilizer. They are packed in yellow bags.
