UDF

I have been involved in planning of UDF activities around the Community Council election, Coloured and Indian elections

I am involved with the executive which take policy decision and sanction ideas that comes from affiliates but stop short of planning programs

I have been involved with organization of rural areas e.g. N. Tul Rally

I have been coordinating activities on UDF TUL & National by virtue of me being and N-EC member.

Overall objective

To mobilise people against the constitution and attempt to educate them about the future society which is often described as Non Racial democracy.

Specific objective

Mobilisation against the new Constitution ~~etc~~ was achieved

General objective

Education about future society has not been properly addressed or defined and therefore people have got no vision of what we are talking about clearly. Instead of addressing ourselves to what we want we have often spoke much about what we do not want. Racism & Liberalism and not there fore this is not done in relation with what we ~~we~~ should be our general goals.

Specific

- ① I have availed myself for udf work any time and any
- ② I have availed what-ever skill I have to the growth of the organisation
- ③ I have used cric resources for udf car, petrol & my salary came from cric whilst I work for udf.

Immediate objective

Mobilisation

Medium objective

Political education and Ideological

Long term

Program to achieve liberation to free and Non Racial society still hazy in peoples minds

② Did we stick to our program.

③ Did we use the correct or Right method and techniques

④ Did we coordinate our work

⑤ Did we advance our skills to the maximum benefit from the Programs

⑥ Were we pleasurable

Did we follow-up through.

How could the problem be avoided.

- Strong + weak points

Did we give each other <sup>assistance</sup> feedback,

(6)

1. Assessment.

1. Need to know what is taking place in organisation around us
2. Need to be part to those discussions and deliberations to get to know feeling of people generally.
3. Need to know short-comings of people generally as to assist some of them on the spot.

2. Planning/Priorities

Goals of the Progressive movement.

Critic's Role as to enable the Progressives to overcome some of their short comings.

Knowledge of the general Plan what is it aimed to achieve--

Priorities

Felt need of the people

Need of the organisations.

Plans as seen by org. and as seen by the members

UDF (What was implemented)

① Boycott campaign

② Mass mobilization

- Little education as to how do we get to the stage of a movement.

Why

Time & harassment became the deterrent.

Did

Yes we did but we did not follow the programs  
e.g. Coors. has new office bears every year.  
& still continue to organize new Branches.

In every workshop there are more than half new people.

No

The feasibility of our programs was to a large extent dictated by the nature of orgs we dealt with.

There was lack of team work and we did what we knew as individuals

Arret was left to coordinate alone and as a result we lack coherency.

Yes but some of the issues got lost as we were handling different org at a time  
e.g. Union workshop. History  
Approach to org. & Adm.  
Not how to conduct negotiations

Yes

Accidentally

No

Some but not all (activists are having different demands placed upon them.)

## Formation and Purpose of UDP

- ① Assumptions → Progressive Movement
- ② Key political issues Referendum & N. Convention
- ③ Plans and Objectives
- ④ Relationship → comradeship
- ⑤ Foreign Policy → Anderson eqy.
- ⑥ Role of leadership

New year and Plans

structures and workshop.

## Problems

(9)

- 1. P. weekend the plan were decided from the top. as a result people did not know how to internalise the program. People did not know whether they are permitted to change the thrust in accordance to their local issues. The slogan Ban Apartheid did not reflect the militance that was in the township.

Because of that the campaign fell flat

## Consulate affair

- 2. There was no ~~clear~~ coherent position which was build to have people to even a small group in all the regions to explain the gains that could be made out of such a move never mind planning before the move. As a result, when people started asking questions there was no direct answers at a local areas.

No gains in a progressive sense only in the liberal sense. pres. tacit support from which was more dogmatic

## Anderson

- 3. Clandestine planned. No piping to our structures or to Anderson on <sup>specific</sup> ~~other~~ gains goals. No we did not influence him in any direct way. He did not shift significantly after the visit.

## Repression

- 4. Was not exploited to build an org by in a great way. No public meeting around the issues not much media shifted more to Anderson/Consulate rather than N. figure

- the udf sense Terror. later Pops.

### Misc

Resources going put into production of pamphlet.  
Making it udf centered issue rather than orgs

Failure to set local structures mandated by orgs  
we appointed one person to coordinate the campaign  
lack of proper planning of his program  
No transport.

### Political issues

When people were beginning to have much confidence  
around the udf.

We did not pick up on their felt needs and initiate  
a campaign from that.

There was a crude move which was interpreted  
as liberal referendum. - P.

People took a very sophisticated line in an attempt to  
win everybody in their sides

Campaign

- Anti Com Campaign > little support from US.
- Misc. Lack of planning > Not internalised by orgs.
- Tricameral parliament > Massive resources & personal power.
