The Womens International Democratic Federation was founded ten years ago, and International womens day is the one day set aside each year for women to come together to put forward their demands to make their voices heard. In every country of the world, women will be meeting, as we are meeting; in some countries like China, the Soviet Union, and other places they will be celebrating the fact that they have won their freedom and their rights, and that their lives and future of their children are safe guarded. In other countries, such as England, France and Italy they will be recording the great advances women have made during the past few years, and speaking of their determination to win full equality for women in every sphere and of the need for better opportunities for their children. (And in yet <sup>in</sup> other countries) And yet in colonial countries such as South Africa women meeting as we are meeting, to discuss once again what we can do to end misery and oppression that exists for the women and children of our country, how we can

win our rights, and how we can win full opportunities for education development and happiness for our children. It is this coming together of women of the whole world that marks the progress women have made. Once it was impossible for women to express an opinion or to take part in the affairs of her country, now it is essential. In this country, faced with the new pass laws it becomes the duty of every woman to take her place in organizations struggling for our rights and human dignities. And in this fight we are strengthened by the examples set of women in other countries. Each year this day takes on wider and deeper significance as a day of struggle, of friendship, of understanding and of new resolutions and beliefs and social backgrounds reinforce their determination to unite more firmly to win full rights to ensure peace and the happiness of their children. This year International ~~day~~ ~~women's day~~ women are growing more and more conscious of the fact that their

rights, the happiness of their homes and future of their children cannot be secured as long as peace is threatened. Let us bring up our children to love all peoples and we will not allow the perversion of their minds by the cult of arrogance and the encouragement of racial hatred. All children, white or black are equal, have the same rights and must be protected together. Let our millions of hands stretch ~~together~~ <sup>world</sup> over the ~~each~~ to clasp another in friendship. The influence of the W. I. D. F. has been felt in South Africa, and through its stimulus the first National Conference of Women of all races ever to be held in our country took place in 1964. The Federation of South African Women was formed at this Conference. Women are today playing a more important part role than ever before both in our country and in the world as a whole. Women of South Africa made history when our Federation organised the magnificent Pretoria protest last October. Now women of South Africa are faced with their greatest

struggle against the hated pass laws in fighting against this pass for women, and for the rights of our children to proper and full education and care. Women of South Africa and tasks is ~~unmeasurably~~ immeasurably strengthened by the support of women of other countries through the W. I. D. F. We are not fighting alone. Two million women of 66 countries will watch us, support us, give us their encouragement. They know oppression in South Africa is a threat not only to all Africa, but to the world, as the years went by, the W. I. D. F. constantly grew in strength, drawing together millions of women from different countries, all with a common purpose, the W. I. D. F. worked ceaselessly in the cause of peace. Making a great contribution to the establishment and growth of the World Peace Movement, it sent Commissions to different countries issued pamphlets and magazines in many languages, helped women to establish and strengthen their organizations, and did every thing possible to defend the rights of women and children every where.

In 1965 came the great World Congress of Mothers attended by more than a thousand women from 66 countries, and a South African delegate presided at one of the sessions. ~~This conference declared~~. I'm happy to say I was one of the delegates who attended this historical conference,

The afternoon session will be devoted to passes.
