Subject: Super 8 film unit.

the contribution for the years 83/84 & 84/85
will be ^{made} provided the above mentioned minister
is convinced the film unit appears able to
realise the objectives set by it and operates
satisfactorily.

Second Secretary. H. Rijkenhuis.

Netherlands minister for Development
Cooperation is in principle prepared to
contribute an amount not exceeding
1247 - 960.

Dear Mr. Boudewijnse.

Re: Funding for superunit for 84/85.

Even though we would like to place on record our sincere appreciation for funding our film unit for 83/84; as this would ensure the smooth functioning of our for this year.

With reference to a letter from the ~~Embassy~~ ^{Embassy}, which outlined broadly a funding arrangement ^{Total} for 3 yrs i.e. 82/83 ^{amts}; 83/84; 84/85. - It ~~seems~~ ^{is} in principle the ^{mission} Embassy ^{has} committed itself to supporting the Project unit for ~~3~~ 3 yrs. as part of the agreement ^{the contribution for} 82/83 will be 83/85 will be provided for once the minister concerned is convened next we are in a position to function satisfactorily.

I take it that 84/85 is taken care of, because of the support we had received for this year; I would also draw your attention to the fact that we have 2 months more ^{our funding year to end} before we await further communication on this matter.

afroscope is an independent and committed group, dedicated to new and challenging film/video productions appropriate to the social realities in S.A.

We function on 3 levels ① production
② workshops
③ Resource wheel.

A common problem ^{EXP-} we face general functioning on all of these levels is one of ^{overall} resources i.e. we lack basic items of equipment

- e.g.
- 1) T.V monitor
 - 2) video recorder.

(See budget as attached)

The present video recorder we have, is an Hitachi portable video ~~afroscope started off as a~~ Cassette recorder V.T. 6800E and is suited for more of a domestic application, not exactly for a more vigorous usage that we subject this recorder to.

~~We started off as a Super 8 unit and originally~~

We ~~we~~ budgeted for an industrial J.V.C. recorder which is more suited for ^{more professional} the application we envisage. Ideally ~~we should be~~ we should be working on Umatic, i.e. $\frac{3}{4}$ " video geared towards high quality production - coupled with this factor is other financial considerations, e.g. Umatic Tapes ~~cost~~ 20mins - R40
VHS Tapes - 3 hrs - R24 (High Grade)

In the long term the VHS industrial format is the more viable format in terms of ^{the} economics and quality; VHS industrial is also capable of quality in the standard Umatic but, is ~~to half at the~~ ² its price.

The above mentioned items of Equipment will cut down

and ~~costs~~, considerably on costs in as far as being out
equipment; sometimes ~~through~~ ~~and~~ increased productivity
in as far as labour - greater material could be copied in
and resources. Greater mobility or diversity on 2 found
and operations - ~~if~~ in a situation where
previously limited, indicating greater control of
and productive capacity, where previously productivity was
determined by ~~circumstantial~~ circumstances. ○

the scope is an independent and committed group, dedicated to new and challenging film productions appropriate to the social realities.

- 1) Production
- 2) Workshops
- 3) Distribution

a common problem in our financial position on all of these 3 levels - budget - we have to deal

- 1) To do movies *
- 2) video recording
- * super 8 unit inception.

We would like the video recorder we have in an industrial portable video cassette recorder and is suited for a domestic application (more home usage - not ^{suited} for a vigorous application as envisaged. ~~without~~ video systems with -).

~~The~~ budget we have budgeted for for an industrial juv. which is ~~more~~ suited for the application we envisage.

⊗ We believe that the format will make great roads, will be ~~best~~.

Ideally we should be working on Umatic lowband video tape - ~~this format~~ should because it is geared towards high quality production - coupled with with ^{the} is factor is one of cost - Umatic 'tape $\frac{3}{4}$ " 20min tape = R 40.00

attached is a proposal for equipment

Tool kit

Soldering iron -

Screw drivers - 3. - sizes ?

adapters - ~~my~~ mini jacks. female / male

spare plugs.

~~use~~ uncutting tape.

Gaffer tape -
