**Thomas is a wise man**

Thomas fell off his bicycle and hurt his knee. He knew that germs might get into the cut and make him ill. So he put 'DETTOL' on the cut. 'DETTOL' is strong and kills germs quickly, but it will not hurt you. So whenever you have a cut, sore, bite or sting, prevent infection by using 'DETTOL'. That is what doctors do. Make sure you get the real 'DETTOL' by looking for the bottle with the sword on the label.

**Mrs. Mekela says ... "TO KILL PAIN, TAKE KARROO TABLETS!" —They stop pain quickly—They keep pain away**

Mrs. Magdaline Mekela is a Midwife practising in Sophiatown. She used to be at a large and famous African Hospital. People know they can trust her.

When you hear people like Mrs. Mekela telling you to use Karroo Tablets to kill pain, you can know you are hearing the truth. She has been helping people in pain for many years.

These tablets are different from others: they are pink and large and very strong. They stop headaches very quickly. When you have toothache, or a faceache, drink two tablets and they will help you. But make sure you get KARROO tablets: when you open them, you must see the pink colour.

Karroo Tablets are a very strong medicine, but they are safe. You can give Karroo Tablets to children and sick people, and they will feel better. Take Mrs. Mekela's good advice and always have a bottle of Karroo Tablets in your house. It is better to buy the large size. You get more tablets for each tickey you spend. Prices are 1/9 and 3/6.
